

Mercator Transport Corporation Group opens a subsidiary in Las Vegas, USA

LAVAL, QUEBEC, January 19, 2009 – Mercator Transport Corporation Group (“Mercator”) (TSX VENTURE: GMT) reinforces commitment to bringing operational excellence in United States.

Mercator is opening a subsidiary in Las Vegas, Nevada, USA (Mercator Transport International Corporation), to serve its existing and future customers and partners. The opening of the Las Vegas subsidiary demonstrates the company’s continued commitment and expansion strategy.

The Las Vegas subsidiary provides freight forwarding, international logistics and distribution services. More specifically, Mercator provides logistics services for the construction of hotels and casinos in the Las Vegas region. Growing demand in this area called for the creation of a subsidiary to pursue Mercator’s development. As such, operations in Las Vegas are coordinated by a team leader, trained in Montreal, Quebec. Mercator’s operations are located near the McCarran International Airport and close to the downtown strip.

“Mercator already enjoys a solid reputation in the region for value-added services and a clear understanding of customers specific needs. With this expansion, Mercator is well positioned to gain market shares while continuing to provide existing customers with continued excellent services” said Jean-Pierre Apélian, President and CEO.

About Mercator

Mercator specializes in freight forwarding, international logistics and distribution. Mercator offers high value-added services in global supply chain management, and designs tailor-made solutions. Customer intimacy and commitment differentiates Mercator in its ability to implement customers' requirements.
